

Welcome to a study guide of the Bible.

This is a topical study guide of the Bible. Each study shows verses in both King James and New International versions. This collection of studies has been in the making for 45 years and represents only the Bible. This website is non-denominational. We believe the Bible is God's inspired Holy Word.

We encourage use of these studies for individuals, groups, or whatever you desire as you study topics from the Bible. The studies can be photocopied and used for your study sessions. You cannot sell or reprint the studies under our name or any other name. Please enjoy the Bible and gain knowledge from its treasures God has given us.

Printing individual studies is easy. At the bottom of each page is a printer button that you simply click on. A PDF file of the study will open and you can print or save it from there. You will need to have Adobe Reader installed on your computer for this to work. If you don't have it, it is a free download available by clicking on the following link: [Adobe Reader](#)
